# WHAT'S BOTHERING YOU?

- sick of people being pigeon-holed and stereotyped?
- think people should be given more info about things like drugs, alcohol and sex?
- lack of sports facilities, late night transport or recycling really wind you up?
- fed up with attitudes to young carers, disability or healthy eating?

Whatever the problem you could be the person who fixes things. With our crack team of project and media experts, you can take on any issue that matters to you and do something about it. We'll help you find a creative way to fix the problem, and feature your project online.

So what's in it for you? Well apart from fixing a problem and the glory that comes from knowing it was all thanks to you, it will look great on your CV. Plus we'll help you make a film, website, podcast or presentation, so one day you can show your grandkids what you've done to make a difference. Every month selected ITV Fixers projects are highlighted on the ITV regional news.
